year with better hopes and brighter prospects than it ever before enjoyed. year with better hopes and brighter prospects than it ever before enjoyed. The remarkable success of the paper in the past, as manifested by its large and steadily growing subscription list, its increasing advertising patronage and the expressions of goodwill towards the journal which greet us from all quarters, convinces the publishers that they are doing what they set out to do—namely, inruish a newspaper that the people would like, and therefore support. The HERALD, as in the past, will be the people's paper. Independent in a political sense, it will always be found on the side of the people, outspoken on questions affecting the rights of the masses; battling for local self-government and the largest liberty to individuals consistent with public good; laboring for a pure, honest and economic administration of government; treating public matters dispassionately and employing language calculated to enlighten the reason of men, rather than influence their passions, and working for peace and the development of the resources of the territory, instead of trying to create strife and retard progress. With our increased facilities for gathering news, both by telegraph and mail, the employment of a larger number of correspondents in different sections of the country, and the better arrangement of all the many details of the

SALT LAKE

WEEKLY HERALD.

About the 1st of March, we will begin the publication of a Weekly Edition of the Hexald. The demand for such a paper has been very pressing during be past two or three years. The aim of the publishers will be to furnish a paper for those people who live off the main lines of travel and who are not accommodated with mail service oftener than once a week; to provide a newspaper for those who have only one day a week of leisure to devote to the pleasant and profitable employment of reading; to supply a suitable edition of the Hexald for sending abroad—a paper that shall faithfully and honestly represent this great and growing territory, with its many and important industries and great and growing territory, with its many and important industries and its thrifty, enterprising people; to make a paper for the home circle and family fireside, one that shall contain make a paper for the home circle and family fireside, one that shall contain the news, and at the same time combine the essential elements of a literary, educational and industrial journal. In fact, our sim will be to make the Weekly Herallo a welcome visitor to the home, where it will be found a constant fund of instruction, entertainment and profit, to all members of the family Besides the leading characteristics of the Daily, the Weekly will contain matter specially for the agriculturist, the gardener, the stock-raiser, the mechanic, the kitchen and the housethe gardener, the stock-raiser, the mechanic, the kitchen and the household generally, and an important feature of its columns will be the well-chosen, entertaining and moral literature, also reports of the Tabernacle discourses. Nothing will be admitted to its columns that has not first been carefully prepared and revised. The price will be only \$2 a year, a figure unprecedentedly low for a far west newspaper. We confidently predict for the Whekly Herald one of the greatest processes. HERALD one of the greatest cocesses, and the efforts of the publishers shall be to make the paper merit the popularity that it cannot fail to attain.
